

## ANSA Support for Qld Net Free Areas

Dear ANSA Colleague,

I recently wrote to you encouraging you to support the proposals for the establishment of net free areas in Queensland and to participate in the survey being conducted by the Queensland Government.

I have attached an ANSA media release issued today addressing the net free proposals. Please distribute to your club and member networks.

It is imperative that all recreational fishers throw their support behind these Queensland net free proposals. If you haven't already participated in the survey then please click on <https://www.getinvolved.qld.gov.au/gj/consultation/2555/view.html> and complete the survey.

The ANSA media release will give you some ideas on how to respond to the survey questions. If you are not a resident of Qld then you cannot participate in the online support petition.

Regards

John Burgess
