

Preparations are already under way for our Annual Dinner and Presentation night - Saturday 25 October 1980 at the RSL Club. Tickets will be available shortly after the details have been set as to price etc. You can bet it will be a big occasion for all, so keep the date free and see any Committee man about tickets.

We're planning a most interesting ~~Annual~~ General Meeting for September this year. Our guest speaker(s) will include a representative from the Abu factory in Sweden, and there will be movie films/slides to accompany the talk. Good chance of a free keg and of course there will be the usual tasty snacks to keep you all well refuelled. We're looking forward to a big roll-up for this night. The Club is running very well and it needs your support to keep it that way!

Galley Reach anglers are advised that a locked chain has been erected across the access road to the Kanosia ramp. The plantation manager welcomes our visits there and is anxious only to keep out the yahoos. Please see Len Tournier for your key to this chain. The regular Fishoes key will not fit this lock.

Those members who want to stay up to date with ANSA developments will find an ANSA Newsletter and Handbook amendment sheet available on the Fishoes Notice Board.

The updating of the Club's Record Catches has been a big job but is almost complete. We have also updated the list of holders of Club Century and Record Certificates. From now on it should be relatively easy to frequently bring them up to date.

'Till next time.....Tight lines'

Regards,

Neil Handsley
Recorder
